Item Number	Explanation of Inadequacy (circled items above) And Recommendation For Compliance	Date Corrections Must Be Completed
	I Performed an inspection today. On my last inspection on 6/1/07, there were issues that needed addressing.	
	One issue was a medication sheet needed to be started. The facility now has medication sheets indicating the date, time, medication given and initials.	
	The crates housing the dogs, needs to be separated.	
	The kennel walls were the crates are against same, need FRP board installed. According to management this is in the process of being installed. This is to be completed with-in 45 days.	
	The wood in the outside play area is now covered with plastic laddis. However still have wood to cover. This needs to be completed with-in 45 days.	
	The inside play area walls are now covered in FRP board. The molding around the doors and windows still need covering. According to management this will be completed with-in 45 days.	
	The facility has installed plex-glass on the doors with-in the building. Still need to cover the door frames.	
	Need to remeber there needs to be 1 person for every 10 dogs in the play area.	
	Every thing else looks good.	
	I do need a time line when the above issues addressed will be completed.
