Item Number	Explanation of Inadequacy (circled items above) And Recommendation For Compliance	Date Corrections Must Be Completed
	A Follow-up inspection was done on 8/17/06. Today is the 3rd visit to the Shelter. Issues addressed back in Aug 06 have been corrected. However the walls and flooring still need to be repaired and painted. We were given a timeline when this work will start. One issue addressed in Aug was a rodent droppings. This is being worked on. Did not notice as much droppings. Thermometers have been placed throughout the Shelter. The gutter on the outside has been fixed. Wood doors between kennels has been corrected. The Shelter is making improvements however there are still issues to be addressed. Ceiling and walls need work. Still some evidence of droppings but need to continue working on same. Will return at a later date to check on repairs.
