Narrative Explanation

I performed an annual inspection today. The facility was clean and the animals housed appeared healthy and well cared for. 0204- The kennel floors need to be resealed. The city side kennels have been resealed and repainted. The staff advised that management is working with a contractor to determine how to keep the paint and sealant from coming off. The remaining kennels will be resealed once they can determine a good product to keep the floors sealed.

0207- The other issue is there are 3 outside play yards and there is no ground covering. The dogs are walking on dirt. The staff advised that management is holding fund raisers to raise money to install canine grass. I am suggesting that management start in one play yard with the canine grass complete that yard and then start on the next play yard. On an interim basis gravel can be placed in the yards as long the gravel is 6 inches deep. The dog's should not utilize this yards until a ground covering is installed.

The ambient temperature in the kennel area was 81 * at 1:45pm.

The records on the animals housed are in compliance.

This building is over 50 years old and the staff do a good job keeping the facility cleaned and maintained.

I will perform a recheck sometime after 45 days.
