Narrative Explanation

I performed a follow up inspection today. The inadequacies addressed on 7/21/13 have been corrected with the exception of replacing or repairing the kennel grates. The manager advised that the grates are being repaired but the grates are on order.

The dog resting beds are being replaced however there are still quite a few I observed chewed up.

The county is building outside play yards. The director advised artificial turf will be placed down in the play yard. At this time there is mulch on the ground. It is raining today and I observed dogs in the play yard which was getting muddy. I am requesting the dogs be walked or allowed in the gravel play yard on the side of the building until the grass is placed in the play yard.

The new kennel side was very warm and I was advised the A/C was not working but that maintenance was working on repairing the A/C .

The records on the animals are good and well with-in compliance.

I will follow up in 45 days.
