Narrative Explanation

I performed an annual inspection today. The facility was clean and the dogs housed appeared healthy and well cared for.

While on site the owner had a company placing gravel in the outside play yard.

The records on the dogs housed are with in compliance.

This facility utilizes one building as sheltering and one building for treatment. The owner wants to built another shelter building on the property and replace the current shelter building.

The owner and the volunteers do a great job maintaining this facility.

The records are in compliance.
