Narrative Explanation, if needed

Items to be corrected:

.0201 Facilities / Housing in Sound Repair - K- 9 visitation room - the ceiling shows evidence of a leak; water stained sheetrock. Evidence of excess moisture in the room was noted by the mildew on the walls and the water stains around the ceiling ventilation vent and other areas on the ceiling. The source of this leaking must be corrected and then repair damaged sheetrock and repaint all affected areas. Any other areas in the building that may become affected by the leak must be corrected as well.
