Narrative Explanation

At the time of inspection facility is clean and organized.

This facility has plans to reseal the outdoor enclosures in the upcoming weeks.

A dog recently damaged the wooden door leading from the outdoor enclosures into the indoor enclosure area. I suggested replacing the door or recovering the damaged areas with a material that is impervious to moisture.

Food is appropriately stored. Records are in order for all animals requested. Temperature is ambient and ventilation is well achieved. No odor was detected upon entry to the facility.

All animals appeared healthy and without sign or symptom of illness or injury.

Cross contamination barriers remain intact and are impervious to moisture.

No other inadequacies were noted at the time of inspection.

Keep up the good work here.
