Wilson County Animal Shelter	Wilson County Sheriff's Office	Wilson	NC

Narrative Explanation

Inspection today. In attendance Lt. O'Neal, Senior Deputy Jim Averette and Shelter Attendant Tyler Johnson.

The shelter has had a significant amount of work done. The entire inside has been painted. This includes all the dog kennels and drains. The floors throughout has also been redone.
I am pleased with the results at this time. Maintaining of all this work is being done. The shelter is odor free.

New Areas/Issues of Concern as follows:

Quarantine C.
1. 0204> There is a metal frame under the bank of kennels. It's function is to promote stability and keeping the cages off the floor. It is showing rust and needs to be repainted/resealed.

Outside Area.
1. 0203> There are a few dog houses that are intact with the exception of jagged edges around the entrance. These will need to be replaced or sanded down to prevent possible injury.
2. 0203> The large exercise pen has a long rusted pipe that acts as a cross contamination barrier. This requires repair.
3. 0204> Several older yet still in use cat traps are showing signs of rust. New ones have been purchased and are being utilized as well. Options here would be to repaint/reseal if they continued to be in use or to not use them at all.

Wilson County Animal Shelter	Wilson County Sheriff's Office	Wilson	NC

Narrative Explanation

The current temperatures through out the building are borderline. Staff has informed me that at times the heat inside is above AWA guidelines. Lt. O'Neal will be conducting a temperature flow chart for the next 2 weeks. He will alert me to the outcome of this and we will act accordingly. In the mean time, the 2 wall mount fans that have been ordered to go into the dog kennel area A, need to be installed to promote air flow.

Animals on the premises appear happy and healthy.

Paperwork is within required guidelines.

I will revisit the above issues in or around 60 days. Depending on the outcome of the temperature readings I could be back as early as 2 weeks.

☐ check here if a euthanasia inspection form is attached
