0303 Food & water during transport	Not Applicable		0304 Observation of animals	Not Applicable

Narrative Explanation, if needed

Annual Inspection Done Today. Items that need to be addressed as follows> 0201> Standing water is present in large holes behind the main kennel building on the property. These areas are contained to the corners of the building where rainwater flows from the gutter system. 0207>Areas in front of and around the main kennel building as well as adjacent areas where dogs play are barren and have several holes that are deep. This is an ongoing problem according to the owner.

There are 152 dogs on premises. All dogs appear to be healthy and in good condition.

Records are in compliance.

Narrative Explanation, continued

Have discussed barren areas and holes with owners. They have expressed that they do not know what to do at this point. Several attempts with different materials have proven ineffective. Owners express a willingness to bring these areas into compliance and are open to suggestions. They will begin the process of finding a solution and begin implementing. I will assist with any resource information I can.

I will do a follow up to evaluate all progress in these areas in approximately 60 days.
