Veterinary Care
☒ 28. Isolation Facility
☒ 29. No Signs of Illness/ Treated

Item Number	Explanation of Inadequacy (circled items above) And Recommendation For Compliance	Date Corrections Must Be Completed
	I Performed a courtesy inspection on 10/4/06. At that time the following issues were addressed. The concrete flooring is in good shape. This is an outside facility. There is water for cleaning but no drainage system. The back pen is 5 separate pens. Each pen has a dog house. The pens do have a roof covering the pens. There are identical pens to the left. One of the pens stores the food. The food is in plastic containers. There are 3 cat pens stacked on top of each other. The pens are metal and are clean. There are 3 other pens with concrete flooring. There is a tarp around the pen to keep the sun and weather out. The food and water bowls are ok. I saw no evidence of any rodent problem. This facility is for holding until transported to Brunswick Co Animal Services. Need a time table on when the above issues are addressed.
