☒ 28. Isolation Facility
☒ 29. No Signs of Illness/ Treated

Item Number	Explanation of Inadequacy (circled items above) And Recommendation For Compliance	Date Corrections Must Be Completed
	I Performed a Courtesy inspection on 6/7/06, at that time I addressed 2 dogs located outside that were chained up. Those dogs are gone. There are still cracks in the concrete. The cats (feral) outside in cages were laying on wire flooring. This has been corrected by putting down rubber mats. There are several issues that need to be addressed. There is only 13 dog pens. The dogs pens are large and each pen has at least 5 to 6 dogs in some pens. The structure on the outside beathen the kennels is made of concrete and is coming apart. The dogs need something for resting pads. Dogs laying in food bowls. Inside kennels need painting. Need more lighting in kennel areas. There is no sinks in the kennel area to clean food & water bowls. The bowls are removed and taken out back to clean. Some signs on insect & vermin. Need more water containers. The cages in the back of the shelter need to be in better position.
