Respondent	Policy providing feedback on:	Do the proposed edits make this policy easier to understand and apply?	How clear is the revised policy?	Do you have any concerns about implementing this policy?	Please share any comments, suggestions or concern about the revised policy. We welcome any feedback that can help improve it before it is finalized.
District employee	New and Expanded Operations	Yes	Very clear	No	better defined
District employee	New and Expanded Operations	Yes	Very clear	No	Again, thanks to all for putting this in front of districts for input. I believe these changes clarify what was questionable. I know there were a lot of changes in the verbiage, but if possible, it may be easier to understand the changes if the new points were highlighted in some way. Good work.
District employee	New and Expanded Operations	Yes	Mostly clear	No	This is a huge improvement! Thank you
District supervisor	New and Expanded Operations	No	Very clear	No	Both new and revised policy state clearly crop land is eligible for cost share after 3 years beginning when seed has been placed in ground. Livestock is eligible after 3 years from date when livestock was on the land. Districts are required to make the determination. Appeal can go before commission.
District employee	New and Expanded Operations	Yes	Very clear	No	N/A
District employee	New and Expanded Operations	Yes	Very clear	No	Just hope new folks realize that newly planted acreage would include newly cleared acreage also.
District employee	New and Expanded Operations	Yes	Very clear	No	Seems to clarify a lot of the confusion around a new landowner with existing problems.
