

Agrichemical Handling Facility

Definition/Purpose

An AgriChemical Handling Facility means a permanent structure that provides an environmentally safe means of mixing agrichemicals and filling tanks with agrichemicals for the application and storage of agrichemicals to improve water quality. Benefits may include prevention of accidental degradation of surface and ground water.

Policies

1. Limited to one facility per cooperator.
2. Receipts are required for reimbursement for those components for which reimbursement is based on 75% or 90% of actual cost. Total charge to NCACSP is restricted to amount listed on the NCACSP average cost list.
3. Operation and Maintenance Plan Statement (NC-ACSP-OMP) is required.
4. BMP acres affected are required on the contract.
5. Minimum life of BMP is ten (10) years.

Standards

N. C. NRCS Technical Guide, Section IV, Standard #309 (AgriChemical Handling Facility).
