A series of one day workshops will be held across the state to train soil scientists and soil & water conservation district employees in the use of the regional Mobile Soils Classroom trailers and the demonstrations included in the trailers.

By this summer there will be three soil trailers equipped - one to be housed in each region of the state.

The training is highly recommended and may eventually be required for anyone who anticipates wanting to use these soil trailers for field days or other local events. This is the trailer and demonstrations that have been at the State Fair booth. New demonstrations are being added.

You may attend any of the workshops convenient for you. The workshops will not be region specific, are free of charge, and include lunch and snacks.

The workshops will start at 9:30 a.m. and end about 3:00 p.m. Lunch will be provided by the Tobacco Trust Fund and the NC Agricultural Development and Farmland Preservation Trust Fund.

Mountains Workshops

June 21 - Edwin McGee Center, Wilkesboro

June 22 - Haywood County Ag Center, Waynesville

Coastal Workshops

July 20 - Vernon James Center, Plymouth

July 21 - Cunningham Center, Kinston

Piedmont Workshops

August 10 - Orange County Ag Center, Hillsborough
