Project Food, Land & People is a K-12 national environmental education curriculum that creates awareness and understanding of the interrelationships between food production, land management and a sustainable society. Visit the national web site at [www.foodlandpeople.org](http://www.foodlandpeople.org) to learn more about the program.

Project WET (Water Education for Teachers) is an interdisciplinary water education program intended to supplement a school's existing curriculum. The goal of Project WET is to facilitate and promote the awareness, appreciation, knowledge and stewardship of water resources through the development and dissemination of classroom ready teaching aids and through the establishment of state sponsored Project WET programs. Visit [http://www.ncwater.org/education\\_and\\_technical\\_assistance/Project\\_WET/](http://www.ncwater.org/education_and_technical_assistance/Project_WET/) to learn more about the program.

***Deadline for Registration: June 31, 2014 ~ Space is limited so register now!***
