General Information

What is the Envirothon

The Envirothon program is a competitive event for high school and middle school teams to compete in a natural resources knowledge and ecology field day against other student teams. It stimulates, reinforces and enhances students' interest in the environment and our state's natural resources.

Resource subject areas are: Soils and land use, Forestry and plant life, Wildlife and habitat, Aquatics and water quality, and Current Environmental Issues including air quality and the impact of climate change. High school teams have the added component of an Oral Presentation that requires the students to assemble their knowledge of all the tested subjects and use critical thought to solve an environmental problem and present their solution to a panel of judges.

An entire school class or group may participate in studying the resources, however only 5 members may be on a team taking the test. Each team must have an advisor, and each team can have up to 2 alternate students. Each class or school may have as many teams as they wish. However, each team will have to be registered.

There will be a resource station set up for each of the subject areas (Soils, Forestry, Wildlife, Aquatics, and Current Environmental Issues), in an outside setting, where the teams will be given an exam on each of the resource subjects. The team with the highest score will be declared the State winner. The winning high school team will be eligible to compete in the North American Envirothon competition that is held in July or August in different states or Canadian provinces each year. Each written test will last for 25-30 minutes and will have approximately 25 questions. These questions are answered as a team and not as individual students. After finishing one station and at a set time, the teams will rotate to the next station. The test papers are graded and the scores totaled to select the winner.

Test Stations

The five test stations will likely cover the following topics, but are not limited to these:

Wildlife.	Wildlife ecology, habitat, identification, species interaction, foods, diseases, conservation and management.
Aquatics.	Aquatics covers ecology of water, water quality, plants and animals living in or around water, pollution, wetlands, water quantity, and conservation.
Forestry.	Forestry covers tree identification, forest history, ecology, insects, diseases, parts of plants, role of fire, and forest measurements.
Soils.	Soils covers classification, erosion, soil surveys, site suitability, current issues, profiles, soil characteristics, soil ecology, and conservation practices.
Current Environmental Issues.	Current Environmental Issues cover any current or newsworthy environmental issue including air quality and climate change.

Professionals from cooperating agencies and/or independent environmental organizations will conduct the station testing.

Who can compete

Competition is open to Ecology clubs, Girl Scouts, Boy Scouts, soil-judging teams, 4H clubs, home study groups, environmental groups, Vo-Ag groups, or any group interested in competing. All team members must be high school students (grades 9-12) or middle school students (grades 5-8). Teams must be from the same school. An exception is made for home study groups, scout groups, 4-H teams being from the same school; however, they must be from the same general area. An advisor is required at the competition for each team.

When

The State Competition is usually held in late April or early May. **The 2015 North Carolina State Envirothon will be held Friday April 24 through Saturday April 25.** All teams must attend an Area Envirothon and qualify by placing in top seven scoring teams to attend the North Carolina State Envirothon

Where

The State Envirothon will be held at Cedarock Park in Alamance County (see table of contents for map).

Registration

Each of the eight Areas of the NC Association of Soil & Water Conservation Districts will have a structured registration program for the eight Area Envirothons. Your local Soil & Water Conservation District can assist you in registering your team for the Area Envirothon (see table of contents for Districts). There will be seven teams from each Area competition to advance to the State Envirothon Competition. The highest scoring FFA team in an area must advance to the State Envirothon even if it is not one of the top seven teams – making eight teams eligible from that area.

There is a \$75.00 participation fee for each team advancing to the State Competition. **This \$75.00 participation fee is payable to the NC Association of Soil & Water Conservation Districts (NCASWCD).** Checks should be mailed to the State Envirothon Coordinator (see page 3). Many times the local Soil & Water Conservation District will help pay the participation fee.

Resource Information

The NC Envirothon has developed study materials for each of the five subject areas. All the study materials can be downloaded from www.ncenvirothon.org from the HS or MS resource pages to prepare for the area and state level competitions. Your local soil & water conservation district can also assist the teams in securing additional information and resource people to help train the students. **Questions on the tests will come from the resource material or from materials presented at the training station on Friday at Cedarock Park.**

Registration Day at the State Envirothon

Registration at the State Competition event will be from 11:30 a.m. to 4:00 p.m. on Friday and from 8:00 a.m. to 9:15 a.m. on Saturday.

Station Training at State Envirothon

Professionals give a short training session at each station at the State Envirothon on Friday afternoon. The high school stations are mostly in picnic shelters with benches and tables. The middle school stations are in a field under tents. Students and Advisors may bring camp chairs, stand, or can sit on the ground. Those standing and with chairs at the middle school stations are asked to arrange themselves toward the rear so that others may gather on the ground in front. Advisors are asked not to ask or answer question during the training session. The training session is for the students. No one except students and advisors will be allowed at the training stations or on the field. Other parents, children, and guests are asked to enjoy other parts of this wonderful county park during the training sessions.

These Presentations are not set up to give the test answers to the students. Students are expected to have studied all topics prior to coming to the Envirothon. The Presenters are asked to cover some of the material covered by exam questions but not to cover just the test. This is a good time for the teams to ask questions of the professionals if there is something that you do not understand.

The Presenters are also told that if they have a question that is not in the resource material that teams were given to study, that they can ask the question as long as they cover the material during their Friday presentation.

Team Sponsor

Teams must secure the local Soil & Water Conservation District to sponsor the team. The sponsoring District may or may not be able to pay your team's participation fee. If for some reason the local District does not wish to sponsor your team, contact the State Envirothon Coordinator and ask that the State Envirothon Steering Committee sponsor your team. The State Committee will not pay your team's registration fee. A list of Soil & Water Conservation Districts is included in this packet.

Team Size

Maximum team size to compete is five (5) members. If a team has less than five (5) members to show up, it will be allowed to participate. Schools may send more than one team to the Area competitions depending on the Area Envirothon's rules, however each team must register separately. At least three (3) of the original team members who qualified at the Area event must be on the team that competes at the State.

A middle school team may have up to two alternates at the state competition. However, alternates may not be allowed to participate in Area competitions if the Area does not allow alternates. Typically, alternates from different teams are allowed to form teams to participate in the testing. Teams made of alternates are not allowed to place for prizes.

Awards

After lunch, there is a brief awards program to announce the winners, present certificates, and recognize the financial contributors and important guests.

Awards for state competition are as follows:

Middle School

First Place \$125.00 cash, and a plaque
 Second Place \$100.00 cash, and a plaque
 Third Place \$75.00 cash, and a plaque
 Fourth Place \$50.00 cash, plaque
 Fifth Place \$25.00 cash, plaque

High School

First Place \$200.00 cash, and a plaque
 Second Place \$150.00 cash, and a plaque
 Third Place \$100.00 cash, and a plaque
 Fourth Place \$75.00 cash, plaque
 Fifth Place \$50.00 cash, plaque

Community Service Learning Project: High & Middle School Winners—Plaque and \$100.00 each
 FFA Highest Scoring Team: Plaque

Medallions will be awarded to each of the 5 members of the team having the highest score at each station. The Area awards will be different than the state awards.

Grievance Policy

A Grievance Committee has been established to hear complaints on teams not following the rules, cheating, etc. Please inform your team members that if they wish to make a grievance or complaint, that this must be done as soon as possible and before the winners are announced. The guides at the stations are available to take grievances. They should be written down by the guide to present to the Grievance Committee.

Visitors

Visitors are welcome. Please contact the Envirothon Coordinator (919) 715-6680, so enough food can be prepared. All visitors will be given a visitors' ribbon for identification. There will be a small charge for visitors' meals. All adult visitors will be required to sign a code of conduct form.

Meals

One meal will be provided during the competition. Lunch on Saturday will be pizza. If anyone cannot eat the food provided or have special dietary needs, they should plan to bring their own food and cooler to store it.

Parking

There will be an area set aside for parking, and there will have someone directing traffic. Please park in the designated areas. A separate area for bus parking should be provided.

Certificates

Certificates will be prepared for each participating team for the state competition. The certificates will be available the day of the competition for the advisor to fill out.

Motel Information

For those teams coming in Friday and are not camping, there is a list of motels in this guide (table of contents). Because there are often other events that may compete for area motel rooms, please make your reservations early. Reservations can always be cancelled later.

Camping

For the state competition Cedarrock Park allows tent camping in designated areas for a small fee.

Camping can be an additional learning experience for your team. If your team wants to camp at the park contact Phil Ross, Alamance Soil & Water Conservation District at (336) 228-1763 ext 3. You must check in with the park rangers before you set up camp.

Teams Traveling Together

Some teams may want to car pool or vanpool in order to save on transportation costs. If you do and would like to have a contact person for other local teams, please contact your Area Envirothon contact person.

Weather

The competition will be held outside regardless of the weather. Bring appropriate clothing and shoes. Please bring sunscreen, hats, and water bottles for warm and sunny weather. There may also be early morning dew on the field's grass. Please bring rain gear if rain is possible.

A hazardous weather action plan is in place and is different for each day of the competition. Team advisors will be notified at least by Thursday noon at the emergency cell phone number you provide with team registration. On Friday if potentially dangerous weather such as a tornado will occur, the middle school event will be suspended until Saturday. All the high school statins will also be suspended EXCEPT the Oral Presentation Component. The oral presentations and preparations will be moved to the Mebane Arts Center, 633 Corregidor Street, Mebane, NC 27302. On Saturday if potentially dangerous weather will occur, both middle and high school testing stations and the award ceremony will be moved to the Mebane Arts Center. Do not go unless you have received a phone call to do so. Check the website, www.ncenvirothon.org, for updates the week before the event.

Dress

Do not wear any item of clothing or anything else that may identify your team by city, county, or school. Team members will be given North Carolina Envirothon t-shirts.

First Aid

A registered nurse or an EMS group will be on site at the state competition to handle emergencies. If one of your students has an important health issue or disability, contact the State Envirothon Coordinator prior to the event.

Envirothon Community Service Learning Projects

The Department of Public Instruction is requiring school programs like advanced courses of study to have each student to do a service project as part of the requirements for them to graduate. Some counties now require seniors to do a project before they graduate. The Envirothon Committee voted to start a voluntary Envirothon Community Learning Service Project program as part of the Envirothon program. This is a separate, voluntary project, independent from the regular Envirothon competition.

1. Open to High School and to Middle School Envirothon teams.
2. The program is voluntary for participation but teams must compete in their Area Envirothon but are not required to qualify for State Envirothon in order to submit a project for award consideration.
3. Envirothon teams will design and develop a community type project and carry it out during the school year.
4. It can be a physical project, a service project or a data-sharing project.
 - A. **Physical project** (e.g. outdoor classroom, nature trail, wildlife habitat development, small pond for school use, etc.)
 - B. **Service project** (e.g. Envirothon team teaching younger students, picking up litter along a designated stream, starting a recycling program in school, etc.)
 - C. **Data sharing project** (e.g. presenting data on effects of storm water runoff on the environment; keeping data on a stream or pond as to water quality parameters such as DO, pH, macro-invertebrates found, putting this information into a poster paper and presenting it, etc.)
5. Project has to be written up in a format with enough detail that a layman can understand what your mission and goals were. It can include graphs, pictures, posters, etc.
6. A fifteen-minute (minimum) presentation of the project must be made to a public body or a meeting of people from the community, such as a Community Service Organization like the Lions Club, Rotary Club, or a public body such as Soil and Water Conservation District Board or County Commissioners meeting.
7. Video tape the presentation and send it in to be judged along with the write up of the project.
8. Deadline is March 15, 2015 – extension due to weather.
9. Winners will be announced and plaques and cash are awarded at the State Envirothon's award ceremony (Saturday).
10. Submissions should be sent to the State Envirothon Coordinator, Division of Soil and Water Conservation, 1614 Mail Service Center, Raleigh, NC 27699-1614.

Area Envirothon Contacts

In order to qualify for the North Carolina Envirothon, teams must first compete in an area Envirothon event and be one of the top seven scoring teams to qualify.

The contacts for the Area competitions are:

Area 1- (counties--Buncombe, Cherokee, Clay, Graham, Haywood, Henderson, Jackson, Macon, Madison, McDowell, Mitchell, Polk, Rutherford, Swain, Transylvania, Yancey)

Contact: Leanna Staton, Clay SWCD—828-389-9764 (lstaton@claync.org)

Area 2- (counties—Alexander, Alleghany, Ashe, Avery, Burke, Caldwell, Catawba, Forsyth, Stokes, Surry, Watauga, Wilkes, Yadkin)

Contact: Leslie Meadows, Alexander SWCD—828-632-0638 (lmeadows@alexandercountync.gov)

Area 3- (counties—Alamance, Caswell, Chatham, Guilford, Lee, Montgomery, Moore, Orange, Person, Randolph, Rockingham)

Contact: Millie Langley, Guilford SWCD —336-641-2440 (mlangle@co.guilford.nc.us)

Middle School Envirothon Rules

1. **Only** students in grades 5 through 8 are eligible to compete.
2. All team members must be from the same school, home study group, scout group, or 4-H group.
3. Each team will consist of no more than five members.
4. Teams must be accompanied by an adult team advisor to the competition.
5. During the Saturday testing competition, the advisors may not travel with the teams and shall not assist their teams in any manner. No advisors or spectators are allowed in testing areas on Saturday morning.
6. No electronic recording, no digital cameras, no taping and no picture taking on Friday afternoon during training sessions. **No cell phones are allowed** at the resource stations.
7. Advisors will be responsible to assure that teams display proper conduct during the competition and at the host facility. Team members, advisors, and guests will be respectful of everyone.
8. Drugs and alcohol are NOT permitted during any part of the competition or on the park grounds.
9. No clothing or other identification of local schools, towns, cities, or counties will be permitted at the resource stations.
10. All identification keys to be used will be furnished by the State Envirothon Committee. Biltmore sticks used in the competition will be provided to the teams at the Forestry Station.
11. The winning team will be the team with the highest cumulative point total. Certain questions will be pre-selected as tiebreakers. The tied teams will have their pre-selected questions compared until the tie is broken.
12. Rules & regulations of the Envirothon are subject to change. Any and all changes will be explained in advance to all teams and advisors.
13. Once the teams are registered on the day of the event, alternates may not be substituted for team members unless it is an emergency. (Names listed on the pre-registration form may be changed prior to the event.) Each Middle School team can have no more than 2 alternates.
14. The judges' decisions are final on all events.
15. All grievances must be reported before final judging. The grievance committee will handle all grievances.
16. Advisors must send each team members' medical and photo release forms to Area Envirothon Committee when registering for the Area Event.
17. Each Area will submit all registration and medical forms with names of the team members and score sheets from that Area showing teams and members eligible to compete at the state competition along with a copy of the medical consent forms to the State Coordinator as soon as possible after the Area Competition.
18. All teams must participate at an Area competition and be one of seven (7) top teams chosen to go to the state competition before competing in the state event. Only the top 7 scoring teams will be allowed at the State Envirothon.
19. Substitutions may be made on a team selected to go to the state competition, but there must be at least three (3) original team members able to compete at the next level.
20. Violations of these rules can result in the disqualification of a team or a lesser penalty

High School Envirothon Rules

1. Students in grades 9 through 12 are eligible to compete as a team.
2. All team members must be from the same high school unless they are a local home study group, scout group or 4-H group.
3. Each competing team can have a maximum of five and no less than three members. Substitutions may be made on a team selected to go to the state competition, but there must be at least three original team members able to compete at the next level.
4. Teams must be accompanied by a team advisor and / or a Soil & Water Conservation District representative to the competition.
5. During the testing competition, the advisors may not travel with the teams and shall not assist their teams in any manner.
6. No electronic recording, no digital cameras, no taping and no picture taking on Friday afternoon during training sessions. **No cell phones are allowed at the resource stations.**
7. Advisors will be responsible to assure that teams display proper conduct during the competition and at the host facility.
8. Drugs and alcohol are NOT permitted during any part of the competition. (Rules applicable to the local area will be adhered to)
9. No clothing or other identification of local schools, towns, cities, or counties will be permitted.
10. All identification keys/ materials to be used during the test will be furnished by the State / Area Envirothon Committee.
11. The winning team will be the team with the highest cumulative point total. Certain questions will be pre-selected as tiebreakers. The tied teams will have their pre-selected questions compared until the tie is broken.
12. Rules & regulations of the Envirothon, including the Oral Presentation Component, are subject to change. Any and all changes will be explained in advance to all teams and advisors.
13. No advisors or spectators allowed in testing areas on Saturday morning.
14. A maximum of two alternates per team are allowed to participate in the State High School competition and will be assigned an alternate team for participation in the oral presentation component on Friday (based on spaces available) and for testing on Saturday. Alternate teams are not eligible to win any prizes and cannot be included in the placement after final scoring.
15. The judge's decisions are final on all events.
16. In the event that the winning team cannot represent the state at the North American Envirothon, the team with the next highest score will be eligible to compete.
17. All grievances must be reported before final judging. The grievance committee will handle all grievances.
18. Advisors must send team's health forms and parental consent for picture taking to Area Envirothon Committee when registering for the Area event.
19. Each Area will submit the 7/8 registration forms with names of the team members from that Area eligible to compete at the state competition along with a copy of the medical consent forms to the State Envirothon Coordinator as soon as possible after the Area Competition.

20. For teams to be eligible to compete at the North Carolina State Envirothon they must meet the following requirements:
 - a. All teams must compete at their Envirothon scheduled for their county and must be one of the seven highest scoring teams at there are Envirothon. In the event that any of the seven highest scoring teams are unable to attend the State Envirothon, the next highest scoring team is eligible to compete until the seven positions are filled.
 - b. FFA Chapters must compete in the area Envirothon scheduled for their county to qualify to compete for the North Carolina FFA Environmental and Natural Resources Career Development Event.
 - i. FFA teams must designate at registration they are an FFA team and must have “FFA” included in their team name to be eligible to compete for the State FFA Career Development Event. Failure to designate as an FFA team or failing to have “FFA” in their team name will forfeit their FFA division status.
 - ii. The highest scoring FFA team at each are Envirothon advances to compete at the NC Envirothon even if they are not one of the seven highest scoring teams at the area Envirothon.
 - iii. All FFA teams who qualify for the NC Envirothon are eligible to compete for both the FFA CDE and the NC Envirothon awards. (Exception: Rule 20.b.iv.)
 - iv. FFA teams who previously won the NC FFA Environmental and Natural resources Career Development Event are not eligible to compete in the FFA division. These teams are eligible to compete as a non-FFA team at the area and NC Envirothons. NC FFA will determine the status of these teams.
21. Substitutions may be made on a team selected to go to the state competition, but there must be at least three original team members able to compete at the next level.
22. Violations of these rules can result in the disqualification of a team or a lesser penalty
