

North Carolina is **FIRST** in Conservation

Our History North Carolina native, Hugh Hammond Bennett, is universally known as a pioneer in soil conservation. Bennett was born in Anson County, which is home to the first Soil and Water Conservation District in the United State – The Brown Creek Soil and Water Conservation District. To celebrate Bennett and North Carolina’s contribution in leading the country in soil and water conservation, a specialty plate has been created to commemorate this history.

The Support The proceeds from the sale of this “*First in Conservation*” specialty license plate will support Soil and Water Conservation Education Programs for school students across the state. These programs include the renowned North Carolina Envirothon among others.

Your Help For this “*First in Conservation*” specialty plate to become a reality, a minimum of 500 orders must be received prior to the specialty plate legislation being enacted and approved by the General Assembly. The cost for the plate is \$25.00.

Please Provide us with your best contact information if you are interested in purchasing. As soon as the 500 needed goal is reached, we will contact you with details about payment:
