

Coastal Exploration EE Certification Workshop

Conservation Employee Training

Squidward wants to know if you are as upset as he is with all the human impacts on our North Carolina Estuaries? Then join us and learn about:

- Coastal Ecology and Geology
- Human Impacts on our 2 million acres of estuaries
- North Carolina's Seafood Industry
- Field-based explorations and activities
- Concepts on estuaries, habitats and aquatic life
- Coastal Environmental Stewardship
- Current estuarine research

"Plankton sets the table,
and all the oceans come to
eat!" Scott Weidensaul
