Dear Food and Beverage Importer:

The North Carolina Department of Agriculture and Consumer Services is proud to provide this directory of North Carolina companies that offer food and beverage exports. North Carolina exporters have a diverse selection of quality products to offer, whether you are seeking fresh ingredients for food service applications or unique items for a retail operation.

North Carolina's diverse geography means that we can offer fresh seafood from the Atlantic Ocean or trout raised in the mountains, and fresh fruits and vegetables grown in between. Agriculture and agribusiness are North Carolina's largest industry, generating more than \$70 billion for the state's economy. If you don't see what you are looking for, please contact one of our international marketing specialists to see if we can make it available.

The North Carolina exporters listed in this directory are currently providing food and beverage products to more than 150 countries around the world. With more than \$3 billion in exports in 2008, we have the experience dealing with international trade to help ensure a smooth shipment. We hope to see you at one of our upcoming marketing events.

And don't forget, if you want the best, it's Got to Be NC!

Sincerely,
