

STATISTICS PROGRAM

The North Carolina Field Office of USDA's National Agricultural Statistics Service compiles current and historic statistics concerning agriculture in the State. Where possible, information most often requested by farmers, the general public, and workers in government agencies are included.

Reporting of crop and livestock statistics is a service provided to farmers and others in the State by the National Agricultural Statistics Service of the U.S. Department of Agriculture in cooperation with the North Carolina Department of Agriculture and Consumer Services.

The collection and dissemination of agricultural statistics had its start in 1863. This is one of the oldest activities of the United States Department of Agriculture. It was recognized that there were many advantages of a joint relationship between the State and Federal Governments in the development of agricultural statistics. Thus, in 1919 the N.C. Department of Agriculture

entered into a cooperative agreement with the U.S. Department of Agriculture to provide detailed agricultural statistics. The agreement resulted in the creation of the Agricultural Statistics Division of the North Carolina Department of Agriculture and Consumer Services.

The North Carolina Field Office of USDA's National Agricultural Statistics Service publishes official statistics on crops, livestock, prices, and various other agricultural items. The most important reports and the approximate dates of releases are shown in the table below. The reports marked with an (*) are issued separately and are only available at www.ncagr.com/stats. All others are included in the monthly release entitled "Farm Report". These reports are free and available by writing to: Director, Agricultural Statistics, P.O. Box 27767, Raleigh, NC 27611 or E-mail at: ncagstat@ncmail.net. Current and historical data series can be found at www.nass.usda.gov, and using the "Quick Stats" feature.
