Item Number	Explanation of Inadequacy (circled items above) And Recommendation For Compliance	Date Corrections Must Be Completed
	This is a Follow up inspection on the 1/5/09 inspection. I addressed the Shelter needed a hot water heater installed to sanitize the Kennel and clean the Food and Water bowls. On Todays inspection, the county has build a new building and is installing a hot water heater. There are Spigots on the outside of the building that will allow cleaning of the Kennel.	
	Inside the building there needs to be FRP board installed about 4' up on the walls. Being this building is being utilized for euthanasia there is the chance cats and dogs will have some contact with the walls which will be wood material.	
	In reference to the outside Kennel / Play yard the county is going a Wire barrier across the top of area. This will be completed within 30 days.	
	The Shelter on Todays inspection, I observed alot of dogs. The Shelter needs to not over crowd the Shelter. The number of cats impounded was down.	
	The County is making progress, and I will be back in 30 days for a re-inspection.
