Narrative Explanation, if needed

Annual inspection performed today, the following areas are noted at deficient today:

0201} Housing in sound repair is not acceptable due to large chew holes seen in the back wall/garage door.

0202} Ventilation is not acceptable, and made apparent by the strong odor of ammonia and waste. Odor is so strong that I struggled to breathe deeply while conducting this inspection. Also, portable fans used to circulate air and dry floors are full of hair and debris.

Narrative Explanation, continued

0204} Enclosures in sound repair is not acceptable today due to rusted/damaged chain link enclosures. (noted 3-4-15), owner states she did replace some enclosures but has more to go. I did not view any new chain link enclosures today.

0206} Continuous access to water is not acceptable, all water bowls were seen either completely empty, or with very little water available. Owner states she watered all dogs this morning.

0207} Housing sanitized twice daily is not acceptable, and made apparent by the smears of feces in enclosures, and the pungent odor. Owner states she has "scooped poop" today, but has not sprayed down enclosures this afternoon, feces was seen in dust pans.

0207} Building and grounds kept clean and sanitary is not acceptable today, due to numerous bags of trash around the housing area, as well as debris/junk seen.

Owner did say she just returned from vacation yesterday and has had a relative take care of the kennel, so it is not to her normal standards. I advised to address the above areas, and I would be back in a couple weeks to perform a follow up inspection.

Also noted, I discussed areas of deficiencies with the owner, and she signed an incomplete inspection report.

Report was finished off site. It was agreed to e-mail the report to this owner.
