Narrative Explanation, continued

5) Gravel bare dirt areas in play area and in primary enclosures. (0203).

6) Remove weeds in and around facility (0207).

7) Re-arrange enclosures and make corrections as was discussed at the time of inspection to insure adequate perimeter fencing and eliminate contact with wood. (0201).

At the time of inspection origination, disposition, and vaccination records are in order. Some changes are in place but overall these records are in good order. Vaccination records were available for all dogs available. Food is kept in sealed containers and isolation is intact.
