Narrative Explanation, if needed

Purpose of my visit today was to meet with the new County Manager as well as the Counties Maintenance Supervisor - to discuss up coming changes to the facility & it's operations. Changes that were discussed today are as follows: New Septic System will be installed. New perimeter fencing will be added. Tiled flooring w/ internal radiant heat will be added to the kennels as well as installing a commercial misting system, to aid in temperature regulation. French drains will be added to the kennel area for the purpose of allowing waste to be disposed of in a more sanitary manner. FRP Board is to be added to the ceiling where wood & open insulation is located - making the entire area impervious to moisture. Current cat area, will have all walls covered w/ stainless steel sheeting, as well as a sturdy stainless steel elevated surface in which the cat cages will rest on.

Narrative Explanation, continued

Also, during today's visit I met with a representative of the Montgomery Humane Society - an organization that has been inactive for a while due to sheltering issues and space. They currently have plans to build a small facility on the lot adjacent to the County's Shelter for the purpose of housing adoptable animals. Facility is proposed to be an indoor facility, and will be equipped with heating and A/C as well as running hot water. Current time - line on the new build is still undecided as they are awaiting the installation of the new septic system.

I will be available during the process of all noted projects via phone, email, & site visit - to insure all construction and remodel is on track and within AWA guidelines.
