Item Number	Explanation of Inadequacy (circled items above) And Recommendation For Compliance	Date Corrections Must Be Completed
	Items that are inadequate:	
1),2),3),8),9),12),30)	Isolation room - Dry wall is damaged, door moldings are damaged. Ventilation is very poor in isolation room. No thermometer is available to determine temperature but felt comfortably warm on a cold morning. A heat/air vent is in the ceiling but there needs to be a system installed to provide better ventilation. The light fixture is hanging improperly from the ceiling and needs to be repaired immediately. Unrelated items (paint and beauty shop chair) are being stored in the isolation room. They are taking up space needed for the cages. The odors - as in not enough circulation - were strong in the isolation room.	
31)	Dogs in isolation (1 Snoodle, 2 Pekenese) were coughing. Attendant showed me the meds but no records are being kept on any med. given except vaccines and worming. Must start immediately logging ALL meds administered.	
25)	Records - A complete medical log must be created and ALL meds logged on ALL dogs.	
26)	No records of origin are available for large mixed breed puppies. Must be able to show the origin of ALL dogs that go through this pet shop as well as the disposition	
7)	No resting surfaces were available for the dogs that are housed in wire bottom cages. Attendant provided towels for them all during inspection.	
8)	Space - Owner is housing 7 mixed breed (large) (Boxer/Border Collie and Lab X) puppies. Overcrowding is an issue with these dogs. Owner does not appear to have large enough cages to properly house this size puppies. Owner needs to separate and give large puppies more space. On the last inspection (5-2208), owner was cautioned about mingling rescue puppies with the pet shop pups. These

Item Number	Explanation of Inadequacy (circled items above) And Recommendation For Compliance	Date Corrections Must Be Completed
	Dogs should be isolated from the pet shop dogs for a quarantine period to insure they are healthy. Space issue must be addressed by Monday 11-3-08.	
5)	Storage - closet by door - Electrical panel boxes are in this closet. There are many items stored in this closet. Owner should be aware of the State Building Code. It is very important that ALL electical is maintained in a safe manner.	
23)	Puppies (Labx) caged together were fighting over 1 food bowl - must provide 1 bowl per puppy. Address immediately.	
	Owner is advised to provide the necessary light for the dogs in the isolation room.	
	All items except the dry wall and door moldings in the isolation room must be addressed by Monday 11-3-08. It is to insure the proper care is given to all these dogs that a short re-inspection time is given. Dry wall and moldings must be addressed in 30 days.	
	Owner provided records of origin for mixed breed puppies.
