Item Number	Explanation of Inadequacy (circled items above) And Recommendation For Compliance	Date Corrections Must Be Completed
1)	Hallway side of chemical room wall - There has been water damage which has been addressed and the inside wall has been adequately repaired. Maintenance is scheduled to complete the drywall repairs which includes replacing sheetrock and repainting. The same situation applies to the quarantine cat room wall by the dog quarantine door.	
Item addressed from 4-28-09 inspection:		
1- Inside wall of chemical room has been adequately repaired.		
Comments:		
A walk through inspection of the entire shelter at 9:00 AM showed the following: All K-9 Kennels had been cleaned, food pans were being sanitized, cat rooms including quarantine for K-9 + feline were also being cleaned along with the cat food + water bowls. By 10:15 the dogs + cats are fed. All shelter lights were in working order but 1 set in the hallway which maintenance is aware of. The records have been reviewed and are in order (Origins/disposition, description, med). Temperatures were 70° at 9:00 AM in all areas of the kennels. A mother dog with pups was provided extra bedding and a containment enclosure for her and her pups. There were no visibly sick dogs. There were 3 cats with eye discharge that were removed from the general cat population. All food is stored properly. Director is aware there are some torn screens in the kennel room that maintenance will address. Item #1 is on schedule to be addressed.		

APPROVED CONDITIONALLY APPROVED DISAPPROVED Date: 7/14/09 Time: 9:00 AM
