Annual inspection performed today, I arrived on site at 12pm, and kennel owner Julie assisted me today. Indoor housing area is clean and odor free today, and I viewed no obvious signs of illness or injury in the animals housed here today. I did view several inadequacies at today's inspection, and those inadequacies were discussed with the kennel owner and photos taken.

Narrative Explanation, continued

Inadequacies noted today:

(0201) Adequate drainage- is not acceptable today due to the amount of old feces, food and flies I seen in this area. (Right side outdoor kennel)

(0201 & 0207) Daily waste removal/ Waste removal 2 times daily is not acceptable today due to amount of old, dried feces I seen today in the right side outdoor kennel area.

** I viewed a play pool in the yard that had gunky old water in it- I reminded the owner to change and clean pool daily. She did advise the pool was filled after the rain.

** I discussed the cleaning procedures for the outdoor yards today with the owner, this area smelled of urine today. She did advise that yards are cleaned with disenfectent from time to time, but I recommending to clean yards weekly- as well as to add more gravel in the area.

Owner will address all areas, and her staff will be cleaning the drains and outdoor areas today. Inspection is approved today. I will follow up on all work the next time I am in the area.
