Narrative Explanation, if needed

Today's visit to the above location is considered a Courtesy Inspection which is to determine if "Half-Way Home" can be licensed as a Private Shelter with the NCDA & CS Animal Welfare Section.

The following need to be addressed before this facility can be licensed as an outdoor Private Shelter:

1. 6 inches of gravel must be installed inside the pens.
2. A retaining board must be installed on the OUTSIDE of each pen to prevent scattering of gravel.
3. Gravel must line the drain areas between the pens.

Watha

NC

Narrative Explanation, continued

- 4. Records must be maintained showing origin, disposition and medical.
- 5. If the surrounding yards are used for dog exercise, there must a good grass cover or gravel will have to be installed.
- 6. An isolation area must be created and identified.
- 7. The existing wood resting areas must be removed from each pen.
- 8. There must be one house per dog. There must be tarp over each pen for sun / rain protection.
- 9. The gauge of the chain link was discussed with the owners advising them that the weaker / smaller gauge wire will require more maintenance.

At this time there were no dogs being housed.

A licensing application and program of veterinary care has been left with the owner.

A copy of Senate of Bill 626 and memo has been left with the owner.
