| Item Number | Explanation of Inadequacy (circled items above) And Recommendation For Compliance | Date Corrections Must Be Completed |
|--|--|------------------------------------|
| | Follow-up from 8-25-08 | |
| | Items that have been addressed: | |
| 1- | Feed Room - No mouse droppings were found today. Room was cleaner although there was mold, spilled food under the pellets. Manager cleaned this during inspection. | |
| 2- | Veterinary Care - Records show sick animals were put down in a more timely manner than before. | |
| 3- | Disposition Records - Regulations do not state the intake number must be on the receipt that accompanies each animal that leaves the shelter. The shelter has an order a copier so that a copy of the intake form may be made and can go with each animal. For disease purposes this will aid in tracing an animal back to its origin. | |
| | Items still to be addressed: | |
| 1- | (6) (7) Cross Contamination issue. Rotation of dogs while hosing pens is acceptable until new pens are installed. | |
| 2- | (7) 'Wire patrol' - Keep all chain link in safe repair and pay attention to pipes on pens that are damaged - bent, etc. | |
| <p>Inspection is Conditionally Approved contingent upon addressing items (6), (7), (7). Re-Inspect in 60 days.</p> | | |
