COMPLAINT# 137

January 27, 2011

SHELLEY J SWAIM

On January 27, 2011 I responded to complaint submitted to this office by Alice Singh. Complaint is attached. I conducted interviews with Chris Cheek, Animal Control Officer and Christina Duggins, Shelter employee. Inspections of the primary enclosures used in transport were also conducted. Call logs for the day of the complaint, invoices for the up fit of primary enclosures used in transport, and origin/disposition records were also reviewed.

Complaint states the following in red print:

From: Alice Singh [mailto:alice.hinson@gmail.com]
Sent: Monday, January 24, 2011 8:41 AM
To: Aws, Agr
Subject: URGENT..Yadkin County Animal Shelter COMPLAINT

"In reference to 02NCAC527.0302 PRIMARY ENCLOSURES USED IN TRANSPORTING DOGS AND CATS

..... The ambient temperature shall be maintained between 50 degrees F and 85 degrees F."

. A shelter shall be deemed as being in compliance if its vehicles' animal containment units are equipped with operable air-conditioning, forced-air cooling and heating or other temperature control mechanisms.

The temperature control mechanisms utilized in the vehicles operated by the Yadkin Co Animal Control vehicles were up fitted by Jackson Creek. Invoices are attached. Enclosures and temperature control mechanisms were operational. Ambient temperature could not be determined.

"I have all driving records, which include the pick up notes for cats and dogs. Most days, if not all during the month of December/2010

to current were under 50 degrees. I am positive on January 12 around 9:30 am a dog which is now in vet care for animal abuse/neglect was picked up at 7509 HWY 67 in East Bend, NC and taken in when the temp was below 30 degrees.

Interview with Chris Cheek, ACO on duty at the time of the call was conducted, travel logs, origin and disposition records were made available and are attached. Call logs and origin records that the above complaint was in fact answered on January 11, 2011, not January 12, 2011. Officer arrived at 7509 HWY 67 at 09:21 and cleared property at 09:41. Animals were surrendered by the owner and transported to the Yadkin Co Animal shelter. Officer cleared property at 10:00 and arrived at shelter 10:18, approx transport time 18 minutes. It was not possible to measure the ambient temperature in the primary enclosures at time of transport.

"I am also positive the dog was in the back of the truck because I asked."

Dogs were transported in primary enclosures which meet the minimum standards of the AWA.

"The owner has been served with a warrant and has a court date. I tell you, so that you understand the urgency of my complain. My concern is for all cats and dogs, but especially those being picked up for abuse/neglect. This particular dog was already freezing in the ice and snow that morning of January 12, 2011."

Incident took place on January 11, 2011. Disposition of the animal #1269 occurred upon arrival at the facility at the request of Ms. Singh. Animal was transported to Dr. Holtz office for rabies vaccination, prior to adoption.

"Please ask that Yadkin County do one of the following:

- IMMEDIATELY (today) Stop all pick-ups unless the temp is above 50 degrees.
- Have them put cats/dogs in front seat of truck, in a crate - where it is warm.
- Ask the sheriff to pick abuse/neglect cases up and have them put them in the back of their cars.

Please let me know when this will be investigated and how this matter will be handled.

PS: If you need copies of driving logs, please let me know."

Driving logs for January 11 and 12, 2011 were made available by the facility upon request and are attached.
