Narrative Explanation

I performed an unannounced annual inspection today. When I walked to the kennel areas the staff was in the process of cleaning the facility. I walked through the dog kennels areas and the kennels were clean and the dogs had food and water. The dogs appeared healthy and I observed no sickness or injuries on the dogs. I then proceed to the cat rooms and the staff were cleaning the cages. The cats had food and water and the cats appeared healthy. I then went to the isolation rooms and the animals in isolation had kennel cards on the cages indicating the medication that was being administrated or if they were being held in isolation for other reasons. The county has added locked entry into these rooms to keep the public from entering the isolation rooms. The county has added a new isolation room that has heat and air and are getting ready to install a separate ventilation system.

I checked the outside play yards and the county has added gravel to the play areas and have installed fencing around the trees to keep the dogs off. There are 2 trees that will be removed one because of disease and the other is leaning. There is one area were the county installed 5 foot post for fencing but they are going to be removed those post and add longer post to install higher fencing.

I went through the records on the animals housed and the records are with-in compliance. I went through the feral cat records and found that all the cats were either held for 72 hours or longer. If an animal was sick or injured there was documentation on the records.

The county always addresses any inadequacies we find on our inspections and addresses those inadequacies in a timely manner.

The shelter is well maintained and the staff takes pride to ensure the animals are well taken care of.

Note: If animals are to be fostered out to individuals they can only keep nine or less at their home. The nine can either be dogs or cats or both but can not exceed nine.

If the foster has more then nine at anytime they have to register as a shelter.

I am going to leave a copy of the memo addressing the 9 or less.
