

# Beaver Management Assistance Program

## Obtaining Services

October 2016 - September 2017

### County Cost-Share

Listed counties have chosen to participate in this year's Cost-Share Program by fulfilling the annual county obligation of \$4,000. Landholders in these counties may obtain cost-share assistance with beaver damage.

### Landholder Cost-Share

Landholders pay cost-share fees for services at:

- \$25 per site visit
- \$125 per dam removed

Specialists average 10 visits to resolve a beaver problem. Costs increase after 15 visits.

Landholders wishing to conduct their own work are provided individual training at no cost.

### Service Priorities

Requests for assistance are handled on a first-come, first-served basis with top priority addressing threats to public health and safety.

### To Request Assistance

Bertie	252-794-5317	Lenoir	252-527-2191
