

North Carolina Secure Pork Supply (SPS) Plan Webinars

Three Webinars to Prepare Producers for the SPS Train-the-Trainer Workshops in May 2019

The North Carolina Pork Council, the North Carolina Department of Agriculture and Consumers Services, and Iowa State University's Center for Food Security and Public Health are hosting a Secure Pork Supply (SPS) Plan train-the-trainer, one-day workshops for North Carolina's Commercial Swine Industry on May 8 and 9, 2019. An announcement will be made shortly on the workshop locations.

To help producers prepare for these workshops, Iowa State University will be hosting three webinars covering what is in the SPS Plan and assign 'homework' in the final webinar so producers have what they need in May succeed in creating a plan. The webinars and workshops are created for any person in the commercial industry who may need to develop a plan (these are not for veterinarians only).

All webinars will be recorded and posted on the NCDA&CS website.

Please share widely.

Webinar Schedule

Overview of the SPS Plan
