

ENTRY TAG PICK UP INSTRUCTIONS

- **Entry tags will NOT be mailed to exhibitors this year, except for those specified on the mailed entry tag list.** Instead, exhibitors will report to the designated pick up location for each competition department they are participating in at the time of Take-In. These locations are outlined on the map on the next page.
 - If you have entries in multiple competition departments that have different pick up locations, your entry tags for each competition will be located at the designated pick up location.
- Entry tags must be attached to your entries **before** you submit them to their respective competition department. Tables will be provided for you to attach your entry tags to your entries at each of the entry tag pick up locations.
 - Strings, rubber bands, low-tack tape, and safety pins will be provided at these tables for you to attach your entry tags with.
- When you attach your entry tags at Take-In, please abide by the following guidelines:
 - Do not permanently attach entry tags to exhibits. They may need to be moved for judging. Attach your entry tags by using strings, rubber bands, safety pins, or low-tack tape.
 - Do not write anything on the front of your entry tag. You may write important information on the back.
 - Before attaching your entry tags, please ensure the information on the entry tag is correct. If something needs to be adjusted, please visit the Help Table inside Gate 12.
 - At the time of submission, please remove the claim check at the bottom of your entry tag, and fold the bottom flap up to cover your name.
 - You **must** have your claim check to pick up your items after the fair.
- Any entries that are mailed directly to the N.C. State Fair Entry Office will need to include the following so we can correctly tag your entries:
 - A printed copy of your registration confirmation
 - Each entry must be labeled with the Division and Class it belongs to

MAILED ENTRY TAG LIST:
