North Carolina Commission for Soil & Water Conservation
1614 Mail Service Center
Raleigh, NC 27699-1614

Subject: Request for Post Approval – Contract # 48-2024-002 (Dawson Pugh)

Dear Members of the Commission,

The Hyde Soil & Water Conservation District Board of Supervisors respectfully requests an exception to the Commission's policy regarding post-approval of contracts. This request concerns a water control structure under Contract # 48-2024-002 for cooperator Dawson Pugh.

The Water Control Structure was installed prior to receipt of the final engineering design and pre-construction meeting. It was installed based on a preliminary design. The division engineers have visited the site and certified that the practice does meet the standard specifications. While we recognize the importance of adherence to standard operating procedures, we request that the Commission grant an exception for Contract # 48-2024-002. This will allow the Hyde Soil & Water Conservation District to proceed with payment to the cooperator.

Thank you for your time, consideration, and continued support of our district's conservation efforts.

Sincerely,

Chad Spencer, Chairman
