To: Soil and Water Conservation Commission

From: Stanly Soil and Water Conservation District

The Stanly Soil and Water Conservation District is requesting post-approval from the Soil and Water Conservation Commission for Contracts No. 84-2025-007, 84-2026-003, and 84-2026-007 for cover crop implementation. This cover crop practice was planted prior to receiving approval from the Division of Soil & Water Conservation.

This occurred due to an error in communication, in which a Soil and Water employee incorrectly informed the cooperators that the contract had been approved and that cover crop planting could proceed. The employee later conducted certification of the cover crop and it was discovered that the contract had not yet been submitted for Division approval. The cover crop practice for all contracts was certified to meet policy standards and specification. The contract have been submitted and we are request post-approval to complete the payment process.

If you have any questions or concerns, please feel free to call us Monday through Friday, 8:00 am to 5:00 pm. We can be reached at the office at 704-986-3059.

Sincerely,

Curtis Furr
Chairman, Stanly SWCD
