

Organizers are expecting to host one of the largest Ag Awareness Days March 20 in Raleigh. Activities will take place at the State Capitol, Bicentennial Mall and Legislative Complex.

This year's theme is Stronger Farms Stronger Communities, which underscores the significance of the state's \$87 billion agriculture and agribusiness industry to our economy.

Come share the story of agriculture and its many contributions to the state with legislators, and thank them for their continued support of North Carolina's No. 1 industry.
