MEMORANDUM

TO: Potential Fertilizer, Lime, and Soil Additive Registrants

FROM: Brian Bowers, Seed and Fertilizer Program Administrator
Karen Myers, Tonnage Program Coordinator

SUBJECT: Requirements for Registration of Fertilizer/Lime/Soil Additives and Payment of Fertilizer and Lime Taxes

The N.C. Department of Agriculture and Consumer Services (NCDA & CS) is responsible for registration of fertilizer, lime, and soil additives along with the assessment and collection of related tonnage taxes for fertilizer and lime. These registration and assessment programs ensure North Carolina producers and consumers alike have available to them quality products that meet outlined standards and are properly labeled. The attached package contains the documents needed to be licensed as manufacturers or distributors register products and to submit required fertilizer and lime tonnage taxes.

The NCDA & CS-Plant Industry Division is directly responsible for regulating the labeling and distribution of commercial fertilizer, lime and soil additives in this state. As a first step, all companies manufacturing or distributing fertilizer in North Carolina must first register with the NCDA & CS-Plant Industry Division. Beyond this company registration, each fertilizer, lime and soil additive product offered for sale in this state must be registered prior to distribution and sale. The appropriately complete forms: Application for License to Manufacture/Distribute Fertilizers, Application for Fertilizer Product Registration, Application for Lime Product Registration, and Soil Additive Registration Form must be forwarded to: NCDA&CS-Plant Industry Division-Seed and Fertilizer Section, 1060 Mail Service Center, Raleigh, NC 27699-1060. Technical questions related to the labeling may be directed to Brian Bowers at 919-707-3756, email: Brian.Bowers@ncagr.gov. Questions related to registration & fees must be directed to Tara Williams at 919-707-3733, email: Tara.L.Williams@ncagr.gov.

The NCDA&CS-Plant Industry Division is also responsible for the assessment and collection of related fertilizer and lime tonnage taxes. The tonnage assessment for fertilizers sold in this state is set at \$.50/ton with an additional \$.15/ton collected and transferred to the N.C. Agricultural Foundation. The tonnage assessment for lime sold in this state is \$.50/ton. There is no tonnage assessment for soil additives. The appropriately completed forms: Application for Fertilizer Manufacturer's Reporting Permit or Application for Agricultural Liming Material and Landplaster Reporting Permit must be completed and submitted to: NCDA&CS-Plant Industry Division, 1085 Mail Service Center, Raleigh, NC 27699-1085. Questions regarding tonnage taxes may be directed to Karen Myers at 919-707-3769 or by email at karen.myers@ncagr.gov.

Your assistance in completing the registration and tonnage assessment payments is greatly appreciated.
