- a. The image on the left is if you were to login using a preexisting account as part of an organization. You would type in the first part of the URL (ex: ncarg).
- b. The image on the right is if you are logging in using your own credentials. For the mobile accounts we provide, this is how you should log in.

4. After you have logged in, click on your icon in the top right corner.

- Click "Download Surveys" and download the survey titled "EWP Combined Survey123". If you are only collecting StRAP data, you can instead download the survey titled "StRAP Survey123".
- 6. Go back to the main screen to check if it has been downloaded. Once it has, you have now finished setting up Survey123.
- 7. Occasionally there will be updates to the survey. When this happens, it will prompt you to update the survey before using it. Click the update icon on the main screen and download any updates. The image below is where you will find the update notification on the main screen.
