Lagoon/Waste Storage Pond Specification Questions

Waste Impoundment Closure

Cooperator Name: _____ Date: _____

ACSP Contract #: _____ County: _____

Please answer the following lagoon/waste storage pond specification questions.

- 1). Length of time the operation has been depopulated and no waste entering system.

- 2). Indication of status with Division of Water Resource (i.e. has the farm received a Notice of Violation).

- 3). Name of watershed in which system is located.

- 4). Name of receiving waters (stream, river).

- 5). Volume of system based on length, width, depth of liquid & sludge, and side slopes.

- 6). Surface area (acres) of the waste impoundment.

- 7). Methodology of how the waste impoundment will be closed.
 - _____ a) The impoundment will be breached so that it no longer impounds water.
 - _____ b) The impoundment will be backfilled so the area may be reclaimed for other use.
 - _____ c) The impoundment will be converted to a pond.
