J | I performed a courtesy inspection on 12/4/06. At that time I addressed the following issues: The shelter was utilizing plastic bowls. The staff utilizes stainless steel bowls. The temp in the kennel area was 75°. The kennel flooring was in good condition. There was a light in the kennel, not working. That will be corrected today. The ceiling in the kennel area is going to be repaired within 6 months. Going to purchase rubber mats for the dog kennel. This is a small facility. The rears are all inside. The staff overall is in good shape. The staff has been making improvements since the courtesy inspection. The staff is determined to operate a good shelter. There were no signs of inspector vermin. I noticed no odors. The waste disposal system was OK. The staff will keep us informed and give us a timetable. |
