 Treated

Item Number	Explanation of Inadequacy (circled items above) And Recommendation For Compliance	Date Corrections Must Be Completed
	I Performed a Courtesy Inspection on 6/26/06. This Facility is an outside Facility. The Kennel Flooring is concrete. There are 10 separate dogs. Each pen has concrete walls between the pens. A covered exercise area. Separate outside cages for puppies. Shelter has stainless steel food/water bowls. The cats are located in a barn. There are 4 cages. There were no cats. There is heat and air conditioning in cat barn. One problem that needs addressing is gravel for the wash down. There is a drain canal however gravel needs to be put down. (Need time table for gravel) Dog food stored in containers however was not opening. The dogs at the shelter were in good health. I observed no insect or rodent problem. All records were ok. The staff has done a good job with this facility. The facility was very clean.
