Comments:

At beginning of inspection today, none of the cat enclosures - cages, litter boxes had been cleaned today. There was no food in the cat cages. There was feces and loose cat litter under the banks of cat cages. There were strong drain odors.

All of the above issues were corrected during the inspection. Cat's litter boxes changed, cats fed, floors cleaned, drains flushed.

Shelter is in an area that is catching a lot of dead leaves in the outside runs. Management is trying to decide what is a good method to avoid this problem.

Advised shelter manager to make sure if the Viricide used takes care of all virus problems encountered at the shelter.

Records look much better today - intake numbers are following through.

No signs of illness was noted today.

Small sections have been trimmed from the Kennel gates to aid in cleaning.
