<tr>
<td>Follow-up from 2/1/11</td>
<td>Sanitation - slotted K-9 Kennel floors - Since 2/1/11 Bladen County maintenance has cut the stakes on the slotted floor sections so that the shelter staff may separate them and completely clean them. In the past 8 weeks all of the floors have been thoroughly pressure washed and sanitized. The floors were clean and there were no unsanitary odors noted. The grates under the slotted floors were converted to concrete with a grate cover. The drainage area is now in use and no problems were noted. As long as the plastic slotted floors are maintained in a sanitary manner there will not be any discussion concerning converting the rest of the Kennels to concrete. This would be acceptable if the county chooses to do so. Shelter manager plans to repaint the inside floors quarterly. No other problems noted.</td>
