**Items Addressed:**

1. 6 inside runs have been pulled away from the plastic, slotted flooring and concrete has been poured to make the floor of the Kennel level with the shelter floor.

On 8/12/10 Wayne Stewart, Bleden Co. Health Director and Robert Mazik met with me to discuss the plan for addressing the slotted floor sanitation inadequacies. They requested the State allow them a chance to take the slotted flooring in a small area (6 runs) up, pour concrete, install the drain cover and determine if this would be workable. The 6 runs have been out of use since mid-November. The concrete has been poured but there are no drain covers as of today, 4 months have passed since the proposed meeting. The lapse in time is indicating the County is not serious about completing this project. Inside Kennel space is valuable in cold weather and there are 6 Kennels that are not useable because the county has not installed the drain covers. It must be noted by County maintenance that when the drain covers are installed that they are fitted correctly to each individual Kennel so they can be easily lifted when cleaning.

Other Items to Address:

7. Guillotine door steps are missing on #12 13 14 15 16 17 18 19 20 21 22 27 29 34 35 37 38 (17 steps are missing today). This appears to be an ongoing problem. Strongly recommend the existing Guillotine doors be replaced with longer doors that will reach the top of the floor. It was noted on arrival of the shelter that a dog was housed outside without adequate housing for cold weather. I was advised that that dog and some other dogs can lift the Guillotine door and make their way to the outdoor kennel. By extending the length of the door, a dog...

<tr>
<td>10) Refer to item 7</td>
<td>Would not be able to get under the door and lift it up. This causes the Shelter to be disapproved on &quot;Adequate Shelter&quot; and &quot;Adequate Feed/water&quot;. Unless these doors can be so long cannot open then. The Shelter must invest in dog houses for the outside kennels in cold weather (below 50°). Management must insure dogs have adequate shelter, feed and water.</td>
<td></td>

**23) Animal Appearance - Dog appeared cold that had gotten itself to the outside kennel overnight.**

At the end of this inspection county maintenance delivered the door covers to begin installation. A follow-up will be conducted in 2 weeks.
