| Previous inspection performed on 3-4-10 with inadequacies noted in the following areas: 1) 10 of the cages are constructed of particle board laminate that are damaged & need replacing. 2) Add concentration to treatment records.

Today’s Inspection:

#14: Primary Enclosures: There are 12 Cat Cages that are constructed of particle board & laminate. These cages are older & have been damaged in some areas where the laminate covering has been scratched & exposing the particle board. Diseases & viruses can happen in these areas making sanitation difficult. Continue to work to replace these cages.

Continue to recover & or throw-out damaged cat trees.

No other inadequacies noted today.
