| 1089        | Complaint # 1089 - Mr. Robert H. Graham filed a complaint with AWS about a pitbull named Bruno. The dog was released to Caldwell Co. Animal Control on 10/28/10. Mr. Graham said in his letter that he was told the dog will have a chance for adoption. But it is policy at this facility that animals released to them and placed by adopters must be in good health, have good temperaments, and also be spayed or neutered. The shelter is at 100% capacity with numbers of dogs and cats. Mr. Graham also stated on the release form that Bruno did not get along with other dogs, its temperament and overcrowding was a serious factor in the euthanasia of this dog.  
During inspection on 11/24/10, there was no overcrowding, but there were 31 dogs and 39 cats at the end of the inspection, and these numbers change from day to day, 10 dogs were up for adoption on 11/24/10. |
| 1090 | Floors throughout entire facility are still in need of resurfacing. Paint is peeling, cracks in concrete continue to multiply. These cracks are holding objectionable moisture and will continue to cause health problems for animals in shelter. Repair and resurface ASAP. |
