<td>7)</td>
<td>The sheet of fibre based on top of the cat cage that he is on needs to be changed to a non-woven product. There is inadequate resting board space in the top cage in the K9 room. Resting surfaces should be large enough for the animal to rest both on the top and on the bottom of the cage.</td>

<td>8)</td>
<td>Odor - There was a foul odor - urine - noticed when entering the store. Cleaning was on going when this inspection began at 1:30pm. Carpet on the floors allows odors to be absorbed. Discussed with owner the problem which was not on the floor before the store was opened. See comments below.</td>

Comments:
- Observed cats running free in the store today. This could contribute to the odors. All surfaces must be impervious to moisture. There cannot be any constant water dish or drinking area must be located. All cats that live free range in store cannot be playing with food or toys.
- All stuffed toys, scratching posts, should only be used once or washed. Toys may be washed but disposable posts - use only once.

Re Inspect in 30 working days.
