<td></td>
<td>I performed a compliant inspection today. We received a complaint about the temperature in the dog enclosures. The temperature this morning at 10:00 am was already 88°. The temperature needs to be maintained between 50° to 85°. The cat room and office have portable A/C units. The temperature in these rooms was comfortable. I suggested to the shelter staff placing window A/C units in the front kennel area and a standing A/C unit in the back kennel area. While at the shelter, I performed an annual inspection. The shelter is well maintained with the exception of the temperature in the dog enclosures. I am disapproving this inspection today. I will return in 30 days for a re-inspection. The county needs to address this issue within the next 30 days.</td>
