<td>13) K-9 Kennel Rooms - Ceilings - Part of the ceiling has been cleaned of the mold but there are still areas that need to be cleaned. Dust on air vents needs to be removed. Due to the humidity, the mold will be an issue that will need to be watched and addressed regularly.</td>

Comments:

There are 2 rusted steel doors in the K-9 area that are scheduled to be replaced within the next month. There are some areas in the cat room and K-9 rooms that are beginning to need repainting. Shelter should start working toward addressing any areas that need painting before they get to a disapproved state.

Temperatures were 60° at 11:30 AM in the K-9 Kennel area.

There were no signs of undetected injury or illness.

Transportation standards were discussed today.
